**International Exhibition for the Steel Sector: machinery, equipment and supplies for casting, forging, rolling and surface treatment**

**The only monographic encounter in the sector in Spain**

Trasmet, which has previously been held inside the context of the Cumbre Industrial y Tecnológica, will receive a special treatment at this edition to become an international event of a monographic nature, with its own identity, together with addressed and personalised promotion, with a view to attracting purchasers for the sector.

The collaboration of the Spanish Federation of Casting Associations, Siderex and of sectoral associations such as Aias, the holding of the International Foundry Technical Forum, organised by Azterlan-Tabira (a member of the WFO), among other activities, ensure promotion and attendance by the major purchasing groups for this sector.

Exhibitors at Trasmet will count on exclusive promotion services aimed at creating a guided visitor campaign with all facilities to ensure commercial exchanges with interesting purchasers.

Internationally, BEC boosts the attendance of foreign purchasers by means of personalised invitations and the organisation of delegations from countries selected by the exhibitors themselves.

09

**trasmet  
CUMBRE**

From 29 September to 2 October 2009

**30 September and 1 October 2009**

**6th International Foundry Technical Forum**

Organised by the Instituto de Fundición (Foundry Institute) TABIRA and by the AZTERLAN Metallurgy Research Centre, the IV International Foundry Technical Forum is presented as a meeting point for the technical personnel of different parts of the metal-mechanical industry.

This event is intended mainly for the technical personnel of foundries, companies that supply equipment, raw materials and consumables, users and designers of foundry and cast components, machining and heat treatment shops, model makers, as well as specialist from technology centres.

Pressing current issues will be dealt with at this technical encounter, which will count on the participation of internationally renowned specialists belonging to leading companies, foundries, technology centres and universities, who, through their presentations, will share the most advanced technical developments and experiences concerning the foundry industry, as well as new demands and market trends in cast components (designs, materials, etc.).

**Participating sectors**

- Raw material: steels, strip, sheet and other steel products
- Steel tube manufacture
- Finished and in-process products in aluminium and other metal
- Metal structures
- Heavy fabrications / valving
- Construction of steel-making machinery and equipment / laboratories
- Refractory items
- Foundry machinery, equipment and supplies
- Forging machinery, equipment and supplies
- Rolling machinery, equipment and supplies
- Surface treatment machinery, equipment and supplies

**5th Spanish Maintenance Congress**

With the aim of highlighting and enhancing the benefit and value that Excellence in Maintenance contributes to companies and society, AEM, The Spanish Maintenance Association, is calling the 5th Spanish Maintenance Congress, which is to be held in Bilbao on 29 and 30 September and 1 October 2009 in the Convention Centre at Bilbao Exhibition Centre.

**With the presence of the main sectors of Industry and Technology**

Parallel to Trasmet, the Automatización and Subcontratación events are also to be held, making up the Cumbre Industrial y Tecnológica.

Subcontratación, the International Subcontracting and Inter-Business Cooperation Exhibition, brings together almost 700 companies related with metal-mechanical, plastic, glass and rubber processing, machining, surface treatments and coating, special services and subcontracting products.

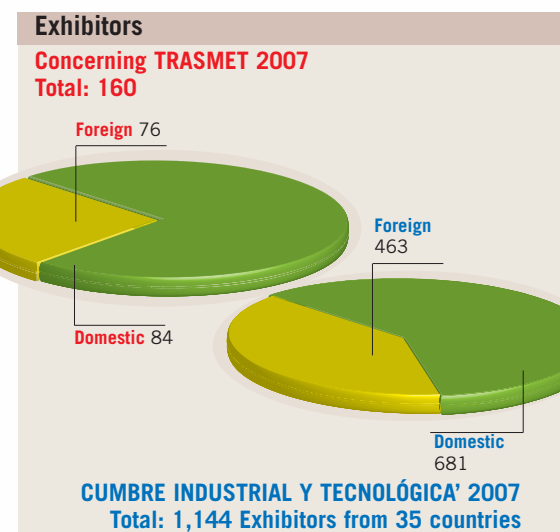

Automatización will bring together the most important exhibitors of automated systems, transmissions and components, welding robots, continuous transport systems and equipment, manipulators, instrumentation, metrology, engineering and maintenance firms, among others.

**With a dynamising "Contracting Forum"**

Programmed meetings between exhibitors and other participants are arranged in the "Contracting Forum", with the aim of putting the leading players at the event in contact with each other.

**A reference point for exhibitors and visitors**

BEC provides an exceptional business centre and outstanding showcase for the ever increasing number of participating companies. Located in a setting with fast, easy access, BEC is equipped with the most complete state-of-the-art infrastructures and communications to enable exhibitors and visitors to optimise their attendance to the maximum.

**Visiting manufacturing sectors in 2007:**

- Aeronautics
- Hardware products
- Automotive
- Air-conditioning and Climatization
- Metal constructions
- Domestic appliances
- Decorative items
- Elevation
- Foundries
- Hydraulics. Pneumatics
- Machine tools
- Agricultural machinery
- Woodworking machinery
- Textile machinery
- Construction machinery and items
- Rail material and components
- Electric motors
- Shipbuilding
- Robotics
- Treatments
- Subcontractors (metal-mechanical)
