CUMBRE INDUSTRIAL Y TECNOLÓGICA

This International Exhibition is aimed at the most prestigious equipment manufacturing sectors

Three Events bringing together solutions related to manufacturing processes in a single meeting point:

SUBCONTRATACIÓN.
International Subcontracting and Inter-Business Cooperation Exhibition

TRASMET.
International Exhibition for the Steel Sector, Machinery, Equipment and Supplies for Casting, Forging, Rolling and Surface Treatment

AUTOMATIZACIÓN.
International Automation Exhibition.

1. DATA FILE 2007

Field of influence:	International.
Nº edition 2007:	4 th edition as Industrial & Technological Summit. 14 th as Subcontratacion:
Periodicity:	Biennial.
Nº of exhibitors of the whole Summit 2007	1,144 Domestic: 681 Foreign: 463
Nº of exhibitors of the Industrial & Technological Summit 2007	500
Nº of exh. Subcontratacion 2007	644
Sectors for exhibitors 2007:	-industrial subcontracting: 57% -welding, automation, electronics, new technologies: 19% -iron & steel, casting, forge, rolling and surface treatment: 15% -industrial maintenance y supplies: 9%
Exhibitors coming from 2007:	33 countries (Germany, China, Spain, USA, France, Holland, Italy, Portugal, U.K., Sweden and Switzerland, among others).
Nº of visitors 2007	13.069
Sectors for visitors 2007	Manufacturers of following industries: automotive, aeronautic, wind power, machine-tools, maritime, railway, household appliances...among others.

27th-30th of September 2011

15th International Subcontracting and Inter-Business Cooperation Exhibition

“SUBCONTRATACIÓN” 2011 will take place within the Industrial and Technological Summit.

Organised for the first time in 1981, from the outset the aim of this event has been to provide small and medium enterprises with an effective forum to promote their activities and showcase sales, as well as a meeting point for national and foreign manufacturers-contractors.

SUBCONTRATACIÓN has learned to adapt to an evolving sector which has reached high levels in terms of competition, specialisation, quality and export capacity - a sector increasingly involved in the manufacturing of the final product.

In this framework, the Event offers participant companies a meeting point, not only for exhibiting but also as a quality business centre. Here, domestic and foreign contractors have the chance to get to know directly and first-hand the quality and characteristics of the subcontracting companies in their sector.

Year after year, SUBCONTRATACIÓN has grown to become one of the main events in Europe and a unique International Exhibition for this sector in Spain.

4. HONORARY COUNTRY: FRANCE.

For the first time this year, SUBCONTRACTING invites a "Guest Country".

France has been chosen as the most appropriate country due to the commercial relationships established between most of the participating exhibitors in this event and the country.

As well as extensive French representation, organised by the country's Chambers of Commerce and Industrial Associations, an attractive group of contractors-buyers invited by the Bilbao Exhibition Centre will also be attending.

Our organisation will arrange Interview Schedules between French Contractors and participating subcontractors.

In addition, a program of round-table meetings and conferences aimed at the exchange of sector information with France is currently being organised, and French representatives who will present the opportunities offered by the French market both to contractors and subcontractors will also be invited.

Thursday, 29th of September is designated as the "France Day", and will include welcoming the authorities and institutional representatives, presentations, cocktails, etc.

You will soon receive up-to-date information about the final program.

5. INFORMATION FOR EXHIBITORS

5.1. Why exhibit? SUBCONTRATACIÓN 2011 offers subcontracting companies:

- > An excellent **promotion platform** among buyers/contractors from more than 30 countries.
More than **45,000 national and international companies** will receive information regarding their participation and will be offered the opportunity to know their activities and products through the new on-line browser about exhibitors.
- > **Direct Contact** with high level contractors through their purchasing and manufacturing managers, project managers and directors.
- > An **international promotion** campaign in the countries of greatest interest for the exhibitor.
- > **Business area.** Interview Schedules- Business Meetings. The chance of organising pre-arranged interviews with contractors selected by the exhibitor and with manufacturers who also select the exhibitor.
- > With **promotion opportunities** to take part in the event. We can organise your campaign from our organisation and even deliver electronic newsletters and messages directly to your customers.
- > **Focus 2011: Honorary country - FRANCE** If your company is interested in the French market, you will have the opportunity to establish contacts with the main French contractors/buyers from sectors such as: aeronautics, automotive, railway, among others. Among the different activities planned within the Guest Country Campaign, our organisation sends invitations to contractors, who are offered free accommodation and transfers, and with the arrangement of interview schedules with the exhibitors.
- > The best showcase opportunity for the presentation and promotion of **new launches**.
- > The opportunity to "extend your business area and market", getting to know first-hand the possibilities of **diversification of your activity**.
- > Getting to know **new projects** being developed by manufacturers/contractors.
- > At an **affordable price** – reduced further than in previous years – with the aim of helping businesses in difficult times.

In short, we launch SUBCONTRATACIÓN 2011 offering a wide range of possibilities to make the most of your presence, to widen sectors, areas of influence and markets, while maximising commercial networking.

5.2. Exhibiting sectors:

Foundry	Rubber
Processing without metal removal	Textile
Part machining	Wood
Heat treatments	Ceramics
Surface coatings	Chemical
Moulds, models and dies	Subcontracting Products
Tools and Tooling	Maintenance
Electricity	Specialised subcontracting services
Electronics	Glass
Plastics	

5.3. Visitor sectors:

Aeronautics	Machine- tools
Hardware products	Agricultural machinery
Automotive	Woodworking machinery
Air-conditioning and climatization	Textil machinery
Metal constructions	Construction machinery and components
Domestic appliances	Rail material and components
Decorative items	Electric motors
Elevation	Shipbuilding
Hidraulics, Pneumatics	Robotics
Tools	

5.4. Types of participation:

➤ Individual participation.

Individual participation with your own stand allows the identification of your company and its activity by the visitor and favours the promotion of the exhibitor's image.

"SUBCONTRATACIÓN" offers you the possibility of reducing the cost of participation by hiring modules which include the stand construction, among other services:

Price of modules:

12 sq.m. module	1.450€
16 sq.m. module.....	1.550€
Additional 8sq.m. supplement.....	775€

The price includes:

Space rental

Modular stand type A: partition panels, lighting, header panel with the name of the exhibitor, carpet flooring (choice of colours).

Daily stand cleaning

Registration in the Exhibition Official Catalogue On-line format and CD format (for exhibitors and visitors)

Invitations for your customers

VIP passes for your special customers

Advert in the magazine "SubcontrataciónPress". PDF format edition.

Discount vouchers for Iberia and RENFE.

Communication Dossier services.

Management of visitors proposed by the exhibitor.

If the exhibitor prefers to build their own stand, the price of space is: 93€/sq.m.

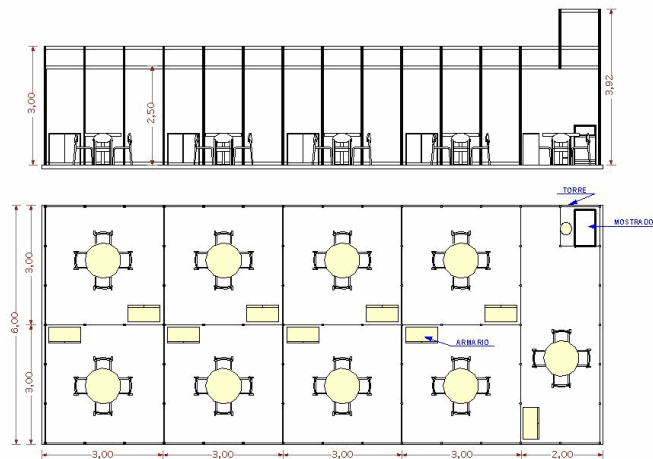

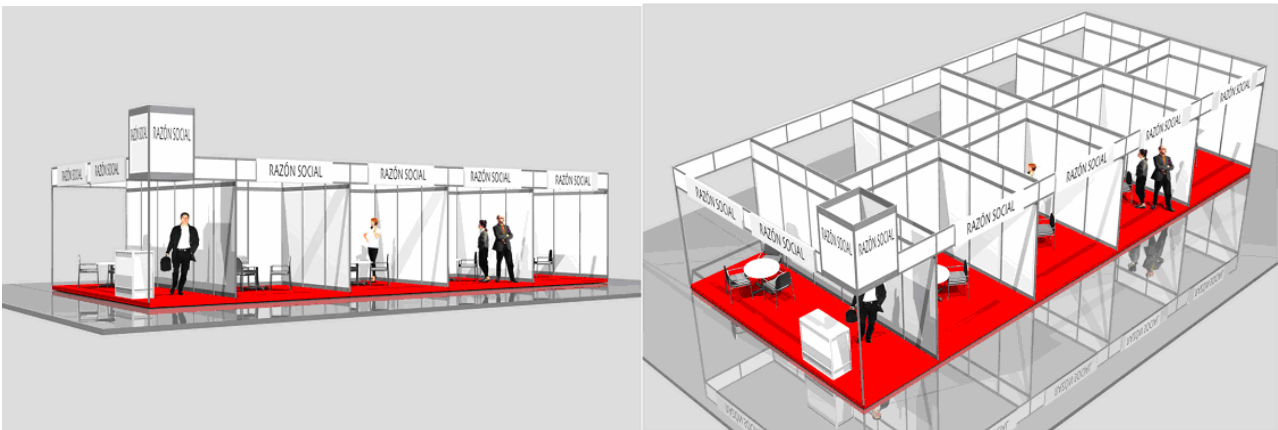

All the above mentioned services are included in the price, except the stand construction

➤ **Group participation.**

This type of participation is mainly aimed at helping small enterprises who may prefer to take part as a group.

In these cases, the Subcontracting Networks and Associations manage and formalise the participation of their associates.

This is a joint exhibition area where, although each company has its own module, they are all coordinated by the group's organiser.

6. PROMOTION CAMPAIGN

Printed Material.

For Exhibitors.

- Event presentation information brochure.
- Regular newsletters with information regarding the development of the event, promotional activities as well as activities of interest for the exhibitor.
- Information newsletter with listings of exhibitors, technical conferences and parallel activities.
- SubcontrataciónPress 2011 magazine. In-depth information about the event and exhibitor advertising.
- Professional invitations for distribution among your customers.
- Communication Dossier. Special services for the promotion of the exhibitor's participation in the Exhibition

For Visitors..

More than 50.000 national and foreign visitors-buyers will receive:

- > Regular newsletters via email with information regarding the activities and products of the registered exhibitors.
- > Access to the exhibitors' product and activities catalogue.
- > A special brochure for visitors including basic information to help you organise your visit, exhibitor listings, transfer and accommodation facilities.
- > Access to SubcontrataciónPress 2011 magazine. In-depth information about the event and exhibitors' advertising.
- > Free professional invitations.

Media Campaign

Technical Press: 157 publicity inserts + monthly press releases in the major national and foreign technical and industrial magazines.

Daily press: 50 publicity inserts in daily mainstream and economic newspapers.

Direct promotion for exhibitors:

In order to facilitate communication between exhibitors and their customers regarding their exhibition participation as much as possible and to invite them and guide them to their location, we offer the following services:

- We can create a standard **email** to promote the exhibitor's participation, so that all the exhibitor have to do is send it to his customers. The contents of this email: communication of participation, plan and location of the stand, invitation to visit, information related to access options and pre-registration as visitor, transfers to and from BEC, travel and accommodation. Featuring the company's logo and the Exhibition logo.
- If they wish, exhibitors can send us their **database** of potential or real customers and we will not only prepare the communication of the invitation, but also send it to their customers by email. This database will be treated confidentially and will be destroyed once the communication is sent.

We provide two completely-free promotional tools which certainly offer time and effort savings for the exhibitors when it comes to communicating their participation in this event.

Exhibitors's news dissemination.

Visitors will receive regular email updates of the developments presented by the exhibitors or of the activities and/or products which exhibitors consider suitable for special dissemination.

National and foreign delegations and quests campaign:

In order to guarantee the attendance of visitors who optimize exchanges, the general visitor campaign is completed with invitations to buyers and the arrangement of delegations from different countries.

As part of the **buyers' campaign**, subcontracting networks, collaborating associations and the exhibitors themselves propose the companies of greatest interest to them. The Bilbao Exhibition Centre invites the directors and production managers from those companies to visit the Exhibition and arranges their transfer and accommodation.

The **delegations** are organised by a coordinator (representatives of the Exhibition, technical press and commercial offices from foreign countries), who arranges the visit for the contractors-buyers of the greatest interest for the event. The Bilbao Exhibition Centre covers the cost of accommodation in Bilbao for the members of the delegations.

For the selection of guests-buyers and the organisation of the delegations, the exhibitors themselves (by means of an admission application) propose their sectors and countries of interest.

In addition and as part of the general activities aimed at capturing visitors, more than 45,000 manufacturing companies will receive specific and regular information regarding the Exhibition and the exhibitors. In addition, we offer the visitor the transfer and stay facilities during the event.

7. BUSINESS MEETINGS

We make this excellent tool available for exhibitors and visitors free of charge:

Visitors will be able to select the exhibitors of greatest interest to them and propose the date and time of their visit to their stand. The proposal is automatically sent by email to the exhibitor who will then submit a reply.

In order to do so, broad information about each exhibitor including contact details, products and activity, company description, images, direct access to the exhibitor's website, etc. – will be available to the visitors in the online Catalogue.

The aim is to facilitate a direct management tool for both exhibitors and visitors, to help them organise and make the most of their participation in the Event.

Interviews with French contractors will be managed differently:

As France is our guest country, contacts and interviews with French guests will be managed directly from our organisation.

8. NEW PROJECT AREA

Manufacturer-contractor companies will be given the opportunity to launch new completed or under construction projects during the Exhibition.

The aim is to deliver information to subcontractors, allowing them to obtain first-hand insights of the needs and objectives of the manufacturers in the most innovative sectors and to establish direct contact with them.

In this regard, the companies invited to participate include but are not limited to: Epsilon Euskadi (sport motor competition), Hiriko S.A (electric car), Inmotec (GP motorbike), and among others.

In turn, these companies will also have the opportunity to widely promote their products and activities both at national and international levels, among the representatives and companies of the greatest interest to them.

You will soon receive the final list of confirmed companies in this area.

BUDGET GUIDELINES**Individual Participation**

	12 m2	16 m2	20 m2	24 m2	32 m2

TOTAL			10,337.76€

In the case of not wishing to hire the Basic stand, the price of free space will be of 93€xm2, and a tailored quote will be prepared for the stand.

Modular stand type A includes: partition melamine panels and aluminium profiles (without wooden floor), carpeted flooring, header panel with the name of the exhibitor, 50 w x m² lighting, circuit protection device and automatic thermal-magnetic circuit breaker.

Payment of a €700 deposit or participation guarantee is required to complete the registration. The amount will be reimbursed to the exhibitor within 15 days of the end of the Exhibition.

GROUP PARTICIPATION CONDITIONS

Benefits

- Free 16 m² stand equipped with basic furniture for the group's organiser.
- Single cargo insurance payment for the whole group stand.
- Single civil liability insurance payment for the whole group stand.
- Advertising page and/or free article in the magazine SUBCONTRATACIÓN PRESS 2011 (May / June issue, PDF format).
- Logo insertion, indicating the group location in the guide plan for visitors.
- Free registration for each of the group's companies in the Exhibition Catalogue (Web), including the possibility of logo and company description insertion.
- Minimum No. of m² per company: 9 m² (instead of the minimum 12 m² required in the admission request)
- Buyers' campaign

In order to guarantee the attendance of visitors to optimise commercial exchanges, the general visitors' campaign is completed with invitations for national and foreign buyers.

In this regard, the Bilbao Exhibition Centre will invite buyers during the exhibition and cover their cost of accommodation in Bilbao for 1 or 2 nights, depending on the country of origin.

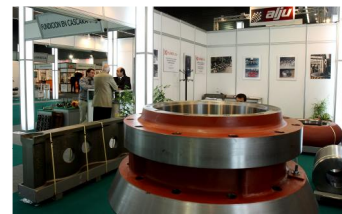

The group's organiser must send us proposals of national and foreign guests made by the companies of the group in sufficient time to allow us to issue and manage the invitations.

Offer validity conditions:

- Payment of all the expenses generated by the group participation through the organiser.
- **Minimum No. of m² per company: 9m².**
- Without maximum of m²
- **Companies who have participated as direct and individual exhibitors for the last 2 exhibitions, are not able to participate as part of a group.**

Procedure

- Admission request (invoicing details) signed by the organiser
